

Questions to Ask Your Doctor about Your Treatment Plan

- What does the treatment consist of?
- What will I have to do?
- How long will it take and how often will I receive treatment?
- What are the side effects? Are any long lasting or permanent?
- Will I need extra care at home?
- Will I be able to work?
- What are the costs of this treatment?
- Will my health insurance cover the cost?

Ask yourself, do I feel comfortable with my treatment plan or do I need a second opinion?
